Summary

Full-Stack Developer with proven experience delivering **scalable, high-performance applications** that improved performance by 50%, reduced UI defects by 30%, and boosted user engagement by 40%. Skilled in **MERN stack, RESTful API development, cloud deployment (AWS, Vercel, Netlify), and authentication (JWT, role-based access)**. Engineered a library of 15+ reusable UI components using React and Typescript, achieving a 70% component reusability rate across three major projects and improving future work.

TRAINING EXPERIENCE

AlmaBetter   Sep 2024 – Present
Web Development Trainee   Bangalore, Karnataka
🔗 AlmaBetter

- Developed **3+ full-stack MERN applications** with responsive UI and secure JWT authentication.
- Built **20+ reusable React.js components** using Tailwind CSS, improving UI consistency and reducing recurring defects by 30%.
- Designed a **car booking platform** handling 500+ monthly simulated transactions with Redux-based state management.

Projects

CarTrade   Sep 2025
AlmaBetter Verified Project – Full Stack
🔗 Link

- Engineered a **car trading platform** with Next.js & Tailwind CSS, reducing page load time by 40% and improving responsiveness.
- Developed an **advanced filtering system**, reducing average search time by 30 seconds for 2,000+ users.
- Implemented **JWT-based authentication** ensuring secure, personalized user experiences for 50,000+ active users.
- Deployed on **Vercel** achieving 99.9% uptime.

Tags: MERN, Tailwind CSS, Shadcn/UI, JWT, Motion, Local Storage, SSO, JavaScript, MongoDB, ImageKit

Trade Brains PORTAL   Sep 2025
AlmaBetter Verified Project – Frontend
🔗 Link

- Delivered **real-time stock ticker** with <2s latency for 500+ equities using WebSockets.
- Integrated **interactive charting & analytics**, increasing user insights by 45%.
- Optimized rendering & fetching, cutting page load times by 60% and improving retention by 30%.
- Boosted API request efficiency, enabling a **35% increase in concurrent user sessions** without performance degradation.
